IMAGINE

**IF EACH OF US BROUGHT
LIGHT INTO THE DARKNESS**

A high-contrast, black and white graphic illustration of a night sky. The sky is filled with numerous small white stars and four larger, four-pointed stars. In the upper left, a bright moon is partially obscured by a dark, swirling cloud. In the lower left, a range of jagged mountains is depicted with white outlines and some internal shading. The entire scene is framed by a thick, wavy, black border with a textured, stippled appearance.

ILLUMINATING

**THE PLACES
THAT NEED**

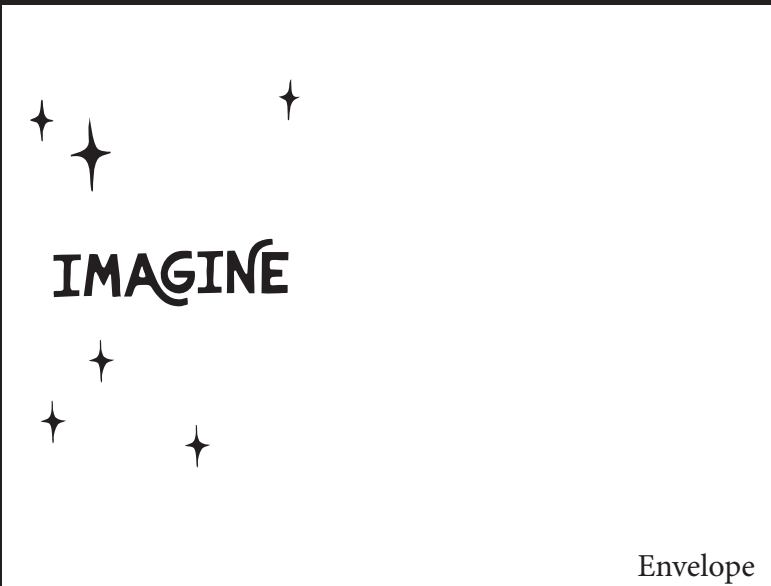

A black and white woodcut-style illustration of a night sky. In the upper left, a large, bright full moon is surrounded by concentric, swirling lines representing light waves or a lens flare. The sky is filled with numerous small stars and several larger, four-pointed stars. In the lower left, a range of jagged mountains is depicted with fine lines indicating texture and shading. The entire scene is framed by a thick, wavy, hand-drawn border.
