

# UALBANY'S GLOBAL IMPACT

With numerous opportunities for education abroad and public engagement, the University at Albany enables students to experience the world in new ways. Across the globe, UAlbany researchers seek solutions for the world's most pressing problems. Visiting scholars from a host of countries engage students with their expertise and innovative ideas. And after graduation, our alumni fan out worldwide, using their knowledge to advance themselves and better their communities.

## IMMIGRANT & INTERNATIONAL FACULTY AND VISITING SCHOLARS

International faculty and visiting scholars bring new perspectives to UAlbany. At the University, international faculty represent at least 32 countries.

Andrea Lang  
(Arctic)  
Department of Atmospheric and Environmental Sciences

(Russia)  
Computer Science

Moscow State University  
(Russia)

University of Haifa  
(Israel)

Ali Alaei  
(Iran)  
Art & Art History

Bushra Rahim, Ph.D.'15  
(Pakistan)

Beijing Normal University  
(China)

Wenli Zheng  
(China)  
Public Administration and Policy Studies

UAlbany alumni live in 138 countries.

Plot points represent a small selection of UAlbany's global initiatives.

## ALUMNI

Worldwide, there are more than 184,500 University at Albany alumni.

Explore more of UAlbany's international impact with our interactive map at [www.albany.edu/impactmap](http://www.albany.edu/impactmap).

## PUBLIC ENGAGEMENT

UAlbany students, faculty, and staff volunteer their help around the world, such as in Puerto Rico after Hurricane Maria.

## EDUCATION ABROAD

For more than 50 years, the UAlbany in Madrid program has provided students exciting opportunities to learn. It is one of more than 77 study-abroad programs offered.

Mustafa Aksoy  
(Antarctica)  
Electrical and Computer Engineering

Hany Elgala/  
Georges Kaddoum  
(Canada)  
Electrical and Computer Engineering

There are UAlbany alumni living in every state.

Ashish Grover, M.S.'03  
(Chile)

Wendy Turner  
(Etosha National Park, Namibia)  
Biological Sciences

Dina Refki  
(Egypt)  
Center for Women in Government and Civil Society

School of Public Health's Center for Global Health  
(Uganda)

## RESEARCH

Hunting for tree-ring data in Bolivia in order to track climate change is just one of many global projects where UAlbany researchers are searching for answers.
