Title: UBC Donor Recognition

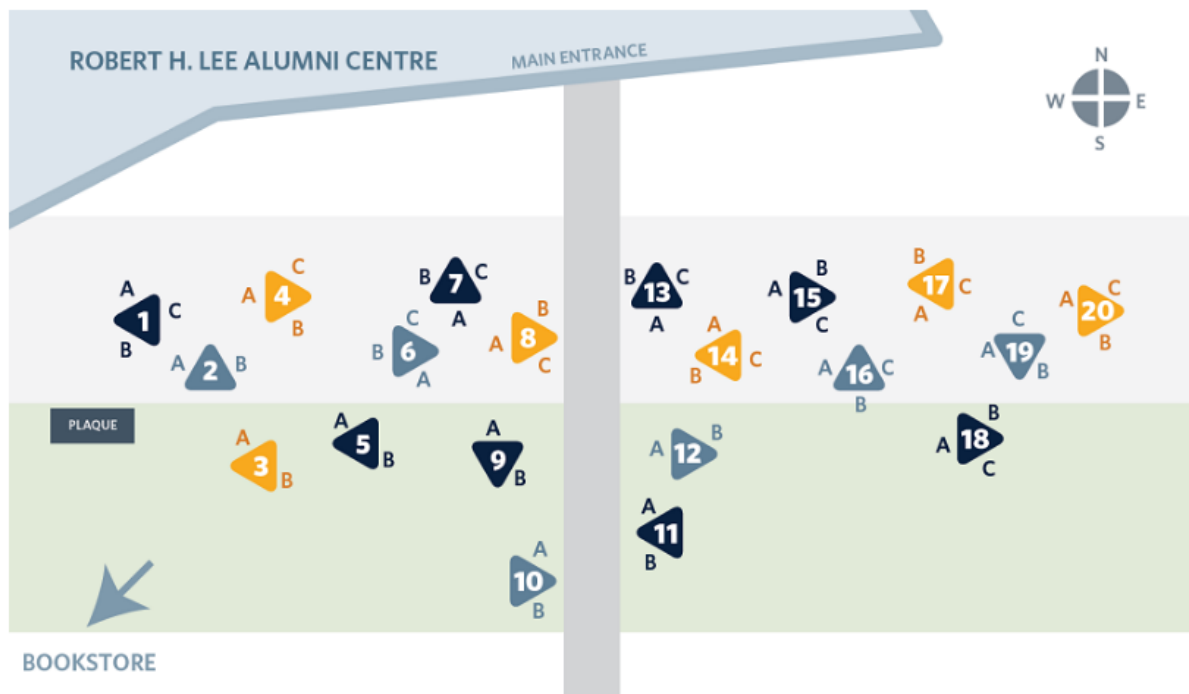

This work recognizes the contributions of 4,300 donors to UBC's \$2B "start an evolution" campaign. Placed at a key intersection, this work creates a dynamic meeting point and bright spot on dark, rainy days. Names are engraved into triangular, internally-lit columns which form an interactive light show from dusk. Magenta colour ripples along the blue-green light of the installation as a viewer approaches, emulating the "ripple effect" brand identity of the campaign.

UBC - Leading Lights - Appendix 4: Wayfinding map

A tool developed to look up a donor name engraved on the Leading Lights feature:

Leading Lights Pillars Name Look-up
