Aging while LGBT: Unique challenges and inequities | US News

10 hours ago

Groundbreaking research is taking a closer look at the unique ways middle-age and older LGBT adults experience getting older, revealing some key obstacles and disparities. Karen Fredriksen-Goldsen, professor of social work at the UW, is quoted.

In smart cities of the future, posters and street signs can talk | Smithsonian

11 hours ago

University of Washington engineers show how "smart" posters can send messages via FM radio waves to smartphones and car radios.

These black female mathematicians should be stars in the blockbusters of tomorrow | Gizmodo

11 hours ago

As the recent Oscar-nominated film "Hidden Figures" notes, so many of the "hidden figures" of mathematics are black women, whether they helped America put the first man into space or are studying the awesome power of dark matter. Chanda Prescod-Weinstein, a theoretical physicist at the UW, is featured.

People power created Seattle's Burke-Gilman trail | MyNorthwest.com

11 hours ago

MyNorthwest.com details the story of how the Burke-Gilman Trail came to be. Merrill Hille, professor emeritus of biology at the UW, is featured.

Do Uber, Lyft worsen Seattle's traffic congestion? | The Seattle Times

11 hours ago

A new study in New York City says the growth of app-based ride-hailing services could undermine cities' goals of unclogging streets. Seattle officials say that may be true here during commute hours. Mark Hallenbeck, director of the Washington State Transportation Center at the UW, is quoted.

WSU, UW look to strengthen their Spokane medical schools | The Seattle Times

11 hours ago

The UW and WSU are once again asking lawmakers for more money for medical education, but the fighting over who is best equipped to teach doctors seems to be a thing of the past.

UW creating next-gen mannequins with warm skin, wet mouths to train battlefield medics | The Seattle Times

11 hours ago

University of Washington researchers aim to create the next generation of mannequins, with warm "flesh," moist "tongues" and other human touches for training battlefield medics.

Having sex at home can make you happier at work, a study says | Quartz

11 hours ago

Benefits of a healthy sex life extend to work, new research suggests. The UW was involved in the research.

2018 Best Graduate Schools preview: Top nursing schools | US News

11 hours ago

U.S. News offers a sneak peek at the 2018 Best Graduate Schools rankings, which will be formally published Tuesday. The UW is on both the master's program in nursing and doctor of nursing practice lists.

Fear of the dentist can be measured in seven different scientifically approved ways | Quartz

11 hours ago

No one likes going to the dentist, but some people really hate it. The UW's Dental Fears Clinic is mentioned.

Opinion | The Women's March organizers have called for a big strike today – will it work? | The Washington Post

11 hours ago

"A one-day strike will not bring about lasting policy change – but that isn't the organizers' goal. This is a 'strike as protest' rather than a strike for a specific political aim," writes Emily Kalah Gade, a doctoral candidate in political science at the UW.

Years of ethics charges, but star cancer researcher gets a pass | The New York Times

11 hours ago

Dr. Carlo Croce, who has been charged with data falsification and other scientific misconduct, was repeatedly cleared by Ohio State University, which reaped millions from his grants. Now, he faces new whistleblower accusations. Dr. Ferric Fang, professor of microbiology at the UW, is quoted.

Virtual reality for doctor and patient | KING 5

11 hours ago

Pear Med is one of the innovators at the University of Washington's CoMotion lab. Their latest project will help the doctor, but mainly the patient understand what is going on inside their body.

State legislators vote for cellphone-driving crackdown | The Seattle Times

11 hours ago

Versions of the Driving Under the Influence of Electronics Act, which calls for a \$245 fine for motorists using a handheld device, have passed the House and Senate. A new report from the UW's Tech Policy Lab is referenced.

Trump signals that he wants to restart the war on drugs | The Stranger

11 hours ago

The head of the Department of Justice, Attorney General Jeff Sessions, spent his first two weeks as the nation's top law-enforcement official expressing an interest in restarting the war on drugs. Sam Mendez, the former executive director of the UW's Cannabis Law and Policy Project, is quoted.

Trump pitches tsunami of cuts to NOAA | seattlepi.com

11 hours ago

The Trump administration is planning a tsunami of budget cuts to the federal government's chief climate science agency, gutting Northwest programs from Pacific Coast salmon recovery to ocean weather buoys, to preparation for tsunamis. Lisa Graumlich, dean of the UW College of the Environment, is quoted.

Could fruits and veggies save hearts worldwide? | US News

11 hours ago

Getting people worldwide to eat more fruits and vegetables could significantly reduce disability and premature death from heart disease, researchers report. Patrick Sur, a fellow at the UW's Institute for Health Metrics and Evaluation, is quoted.

Posters and shirts turned into FM radio transmitters thanks to new technique | Technology & Science - CBC News

12 hours ago

A team of engineers at the University of Washington has demonstrated new technology that can turn everyday objects into tiny FM radio stations.

Poor diet tied to half of US deaths from heart disease, diabetes | US News

13 hours ago

Nearly half of all deaths from heart disease, stroke and diabetes in the United States are associated with diets that skimp on certain foods and nutrients, such as vegetables, and exceed optimal levels of others, like salt, a new study finds. Dr. Ashkan Afshin, acting assistant professor of global health at the UW, is quoted.

Attorney General Bob Ferguson considers next legal move | KUOW

13 hours ago

The White House may have issued a new travel order, but the same legal concerns from the original one remain. Stewart Jay, emeritus professor of law at the UW, is quoted.
