

Question III: Capital Campaigns

Expenditures and staffing increase during campaigns, so it is important to note if your institution is in a campaign. Use the check box to indicate that your institution is in a campaign, and then use the next three boxes to indicate the start of the silent phase and then the official start and end dates of the campaign. If you prefer not to indicate silent phases, only check the box when the official campaign has started, and only enter those dates.

Question IV: Comments and Notes:

Use this space for comments about Section 2b, including any recommendations about the section you would like to share with CAE.
